

Extract from NHS COVID-19

NHS QR code posters are a quick, simple, and secure way for visitors to anonymously register that they've been to your venue. This allows your customers or visitors to receive important public health messages if needed.

The UK is currently experiencing a public health emergency as a result of the coronavirus (COVID-19) pandemic. NHS QR code posters are a key part of the ongoing COVID-19 response. They enable people to have a digital diary of the places they've visited, to help with contact tracing, and they help visitors to quickly receive public health advice if necessary.

By supporting the official NHS QR code poster system, you'll be protecting your visitors and your business. You will help to slow the spread of the virus, reduce the impact of any second wave, and help normal life to resume more quickly.
